Powers
FASTENERS

Powers versus Hilti

- Powers offers the same product solutions as Hilti
- Product specifications are almost all equivalent
- Powers and Hilti are of equal size in North America
- Powers is a worldwide pioneer in the fastening industry

Inventory

- DriveKore stocks over \$50,000 in hundreds of different Powers' products at our Mechanicsburg facility
- 98% of orders placed by 5 pm are fulfilled by lunchtime the next business day
- Access to \$1.4 million in inventory in Powers' Philadelphia warehouse, with next-day availability
- 26 Powers' warehouses across the United States

Field Services

- Powers offers you more ways to get the help you need: call DriveKore, your Powers rep, or Powers' engineering team by phone or email
- Field engineers are available for consultation
- DriveKore and Powers will perform field anchor tests, free of charge
- Free product training

Specifications & Submittals

- No additional work on your part
- DriveKore and Powers will simplify everything and help prepare your submittals
- PDA software provides code-compliant anchoring solutions in a dynamic environment with real-time results; provides calculations and comprehensive digital library

REAL-TIME ANCHOR DESIGN SOFTWARE
Concrete anchor design with PDA in accordance with ACI 318 Appendix D.

Save Money & Time

- 25-30% less than the cost of Hilti anchors
- No complicated rebates
- No tool leases required
- Easy access to engineering support
- Do business with DriveKore, someone you already know and trust
